

HIV Prevention England LDP monitoring

2013-2014: Quarter 2

Executive Summary

In the second quarter of 2013-14, the HIV Prevention England Local Delivery Partners (LDPs) reported **1218** different interventions to support *It Starts With Me* (ISWM) blasts 1 and 2. These 1218 interventions reached 20,292 people and tested 1060.

The most common intervention was [motivational interviewing](#). 474 MI sessions were delivered by 10 LDPs and reached 716 people.

The next most common intervention was [1-2-1 information and advice](#) (389 sessions reaching 15,642 people). The vast majority of [1-2-1 information and advice](#) sessions occurred face-to-face (only 14% were online).

[Group information and advice \(outreach or centre based\)](#) was reported by 17 LDPs, but was far more common among those serving African rather than gay communities. 49 group information and advice sessions reached 1,221 people.

Most of the remaining interventions were either 1-2-1 therapeutic or provided opportunities to test for HIV in the community. Testing opportunities were offered in [community clinics](#) (in organisations, saunas and churches for example); or at other community events.

Overall, 5.2% of all people encountering an HPE intervention in Q2 were tested for HIV during that interaction (1,060 people tested out of 20,292 reached), not including the HPE home sampling intervention offered nationally from an online hub.

Final Report: 8th November 2013

Gary.Hammond@lshtm.ac.uk

Format of this report

The tables on pages 2 and 3 summarise all the interventions reported by African and MSM LDPs in quarter 2 of 2013-14. Where a column is split in half, the left shows the number of sessions of that intervention, and the right shows the number of people reached.

Pages 4 -7 summarise all 1-2-1 information and advice provision in Q2.

Pages 8 -11 summarise all group information and advice across the partnership in Q2.

Pages 12-15 summarise all Event-based interventions, including testing based events and condom distribution events.

Pages 16-19 summarise all the HIV testing sessions offered independently of large events. Most occurred in the office of the providing organisations, with others at churches, saunas and bars.

Pages 20-21 summarise all other HIV testing occurring as part of HPE. Most of these are monthly reports of testing opportunities offered on an open access basis, via the offices of the service provider. However, some occur in external venues and should have been reported on pages 16-19.

Pages 22-23 summarise all the motivational interviewing offered by ten LDPs in Q2.

Pages 24-25 summarise all the 1-2-1 therapeutic interventions offered by LDPs in Q2.

Pages 26-29 summarise the group therapeutic interventions offered by LDPs in Q2.

Pages 30-33 summarise all the distribution interventions occurring in Q2. None of the LDPs are funded to distribute ISWM interventions.

Pages 34-35 summarise the local development and engagement (D&E) activities of the LDPs.
